

Dr. Goggin's Schedule has been revised due to COVID-19.

I am working from home most of the time to maximize social distancing. I check email regularly during normal business hours and usually after dinner for a few hours. I try to respond quickly but that may be affected by the number of email conversations I am having at the time. Students in my classes can also use the discussion lists that have been set up for asynchronous communication.

Disclaimer: The fact that I may semi-frequently answer email late at night or early in the morning is *not* a guarantee that I will *always* answer emails at odd hours.
